

Action points

Two additional resources

Toolkit for Action

Taking action to confront suffering and injustice in our world can be challenging, and can throw up many questions. Britain Yearly Meeting has put together a 'Toolkit for Action' to help Friends take effective action on issues that they care about. It offers tools and guidance for creating change in our world. To access this go to <http://bit.ly/QPSWtfa>. It includes a guide exploring the different aspects to consider if you are planning to hold a public vigil, or a meeting for worship to witness.

Be the Change

This is a resource that encourages young Quakers to take action, exploring some of the issues we campaign on and why they are important. It features a set of cards looking at economics, sustainability and disarmament and links to www.yqspace.org.uk, where there is more information and a toolkit of ideas to take action.
