electricity
from British
sunshine,
wind and rain.**

Switching is green and simple

To celebrate our energy partnership with the Quakers, we've launched a special tariff for Quaker meeting houses using our 100% renewable electricity.

To switch today, contact business-sales@goodenergy.co.uk quoting **QuakerEnergy16**.

We're Good Energy.

A different kind of energy company.

We generate electricity from our own wind and solar farms and we also buy renewable electricity from independent generators across the country - from rooftop solar sites to a turbine in a farmer's field.

But we don't stop there: we're constantly investing in sustainable energy technologies.

By harnessing local, natural energy, we're supporting a cleaner, greener future for all our communities and the planet.
