

## S4SK-25

The project is based in Myanmar and is supported by Keighly meeting.

Scholarships for Street Kids has been providing education for children in Myanmar since 2007, setting up a school, the Phoenix Academy for Learning and Motivation. The project provides education for children who are working to support their families and so are unable to attend school. If a child agrees to attend the academy, the family receives compensation for the child's lost earnings.

The grant will fund places for nine children.
